India Policy Forum 2006-07 -Suman Bery 2007-09-18
India Policy Forum is a journal which is jointly promoted by the National Council for Applied Economic Research, New Delhi and the Brookings Institution in Washington D.C., with the objective of presenting high-quality empirical research on the major economic policy issues that confront contemporary India. The papers cover a diverse set of macro and microeconomic topics of relevance to policymakers. The prime objective of this volume is to make the policy discussion accessible to a broad nonspecialist audience within India and abroad. This journal is also expected to assist in the development of a global network of scholars interested in India's economic transformation.

<i>Worlds Apart Book 07</i> -James Wittenbach 2013-06-12
Book 07 of the twelve book Worlds Apart saga finds the Pathfinder Ship Pegasus and her remaining crew farther away from home than they have ever been before; in a remote quadrant of space without maps, charts, or direction. The recovery of an ancient navigation system from a wrecked starship points them to Yronwode (Ironwood). Once they land, they discover they can never leave, because Yronwode was the prison planet of the former Galactic Commonwealth. The ancients designed the planet to be impossible to escape from. Worse, the centuries-long Cold War that has existed between the descendants of the prisoners on one side and the descendants of the religious missionaries who came to redeem them on the other is about to get hot. The prisoners mass for a massive attack against the last refuge of the missionaries. Also, Commander Keeler is leading the prisoners in their attack against the missionaries, and Eddie Roebuck has become the Pontifex of the missionaries and will lead them into battle against the prisoners. Who will prevail? Who will survive? How will they escape an escape-proof planet?

Ministry of Defence annual report and accounts 2006-07 -Great Britain: Parliament: House of Commons: Defence Committee 2008-01-28
This report analyses the Annual Report and Accounts 2006-07 of the Ministry of Defence (MoD) (published as HC 697, session 2006-07, ISBN 9780102946369). The MoD's assessment of its expected achievements against its six Public Service Agreement (PSA) targets, which run until the end of March 2008, has deteriorated since the previous year's Annual Report and Accounts. At the end of 2007, the MoD did not expect to meet the target relating to generating forces and expects "only partly" to meet targets relating to recruitment and retention, and defence equipment procurement. The failure to meet the target for generating forces is a consequence of the continuing high levels of deployment of the Armed Forces. The Committee is concerned that the Armed Forces have been operating at or above the level of concurrent operations they are resourced and structured to deliver for seven of the last eight years, and for every year since 2002. Achieving manning balance in all three Service continues to be a challenge. Shortages remain within many specialist trades in all three Armed Services, but especially in the Army Medical Service. The report notes the failure to meet harmony guidelines in the Army and the Royal Air Force - another indicator of the pressure on the Armed Forces from the continuing high level of operations - and another target missed by all three services is for ethnic minority recruitment. The MoD continues to experience substantial forecast cost increases on equipment programmes, and the report notes delays in delivering equipment programmes to the planned in-service dates. The MoD

faces difficult choices in the face of expected cuts in the defence programme and the management of a streamlining exercise to reduce civilian posts in the headquarters.

THE SUNDAY TIMES BESTSELLER and a Times, Spectator and Observer Book of the Year 2021 ‘In the first decade of this century, it was unthinkable that a gender-critical book could even be published by a prominent publishing house, let alone become a bestseller.’ Louise Perry, *New Statesman* ‘Thank goodness for Helen Joyce.’ Christina Patterson, *Sunday Times* ‘Reasonable, methodical, sane, and utterly unintimidated by extremist orthodoxy, *Trans* is a riveting read.’ Lionel Shriver ‘A tour de force.’ *Evening Standard* Biological sex is no longer accepted as a basic fact of life. It is forbidden to admit that female people sometimes need protection and privacy from male ones. In an analysis that is at once expert, sympathetic and urgent, Helen Joyce offers an antidote to the chaos and cancelling.

Dose Finding by the Continual Reassessment Method-Ying Kuen Cheung 2011-03-29

As clinicians begin to realize the important role of dose-finding in the drug development process, there is an increasing openness to "novel" methods proposed in the past two decades. In particular, the Continual Reassessment Method (CRM) and its variations have drawn much attention in the medical community, though it has yet to become a commonplace tool. To overcome the status quo in phase I clinical trials, statisticians must be able to design trials using the CRM in a timely and reproducible manner. A self-contained theoretical framework of the CRM for researchers and graduate students who set out to learn and do research in the CRM and dose-finding methods in general, *Dose Finding by the Continual Reassessment Method* features: Real clinical trial examples that illustrate the methods and techniques throughout the book Detailed calibration techniques that enable biostatisticians to design a CRM in timely manner Limitations of the CRM are outlined to aid in correct use of method This book supplies practical, efficient dose-finding methods based on cutting edge statistical research. More than just a cookbook, it provides full, unified coverage of the CRM in addition to step-by-step guidelines to automation and parameterization of the methods used on a regular basis. A detailed exposition of the calibration of the CRM for applied statisticians working with dose-finding in phase I trials, the book focuses on the R package ‘dfcrm’ for the CRM and its major variants. The author recognizes clinicians’ skepticism of model-based designs, and addresses their concerns that the time, professional, and computational resources necessary for accurate model-based designs can be major bottlenecks to the widespread use of appropriate dose-finding methods in phase I practice. The theoretically- and empirically-based methods in *Dose Finding by the Continual Reassessment Method* will lessen the statistician’s burden and encourage the continuing development and implementation of model-based dose-finding methods.

Literature 1976, Part 2-S. Böhme 2013-04-18

Astronomy and Astrophysics Abstracts, which has appeared in semi-annual volumes since 1969, is devoted to the recording, summarizing and indexing of astronomical publications throughout the world. It is prepared under the auspices of the International Astronomical Union (according to a resolution adopted at the 14th General Assembly in 1970). Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months. This time interval is near to that achieved by monthly abstracting journals, compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user. Volume 18 contains literature published in 1976 and received before March 1, 1977; some older literature which was received late and which is not recorded in earlier volumes is also included.
