A battle rages for the heart and soul of America. For one group, the idea of "American Exceptionalism" is dead. Some never tire of lecturing us about how out-of-step America is with the rest of the world and how she needs to get with it. Worse, America, they say, is bad for the world. Her freedom and prosperity are merely historical accidents. Of course, this narrative presupposes there are better places in the world to live. Are there? Were Alec Baldwin to leave the country permanently as he once promised, where would he go?

'Restlessly curious, insightful, and quirky, David Damrosch is the perfect guide to a round-the-world adventure in reading' Stephen Greenblatt A transporting and

illuminating voyage around the globe, told through eighty classic and modern books 'It is always a pleasure to talk about books with David Damrosch, who has read all of them, and he is so eloquent and understanding about them all' Orhan Pamuk Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard's Department of Comparative Literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel prizewinners Orhan Pamuk, Wole Soyinka, Mo Yan and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience, and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh

perspective on perennial problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat and the patriarchal structures within and against which many of these books' heroines have to struggle, from the work of Murasaki Shikibu a millennium ago to that of Margaret Atwood today. *Around the World in 80 Books* is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

"She was part of the 'stunt girl' movement that was very important in the 1880s and 1890s as these big, mass-circulation yellow journalism papers came into the fore."

-Brooke Kroeger *Around the World in Seventy-Two Days* (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne's *Around the World in Eighty Days* (1873), Bly's journey was covered in Joseph Pulitzer's popular newspaper the *New York World*, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly's arrival, and a popular board game was released in commemoration of her undertaking. Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired *Cosmopolitan's* Elizabeth Briland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed

cover and professionally typeset manuscript, this edition of Nellie Bly's *Around the World in Seventy-Two Days* is a classic work of American travel literature reimagined for modern readers.

Around the World in Eighty Days (1873), by Jules Verne (Author)-Jules Verne 2016-04-02

Around the World in Eighty Days (French: *Le tour du monde en quatre-vingts jours*) is a classic adventure novel by the French writer Jules Verne, published in 1873. In the story, Phileas Fogg of London and his newly employed French valet Passepartout attempt to circumnavigate the world in 80 days on a £20,000 wager (roughly £1.6 million today) set by his friends at the Reform Club. It is one of Verne's most acclaimed works. The story starts in London on Tuesday, October 1, 1872. Fogg is a rich English gentleman living in solitude. Despite his wealth, Fogg lives a modest life with habits carried out with mathematical precision. Very little can be said about his social life other than that he is a member of the Reform Club. Having dismissed his former valet, James Foster, for bringing him shaving water at 84 °F (29 °C) instead of 86 °F (30 °C), Fogg hires a Frenchman by the name of Jean Passepartout as a replacement. At the Reform Club, Fogg gets involved in an argument over an article in *The Daily Telegraph* stating that with the opening of a

new railway section in India, it is now possible to travel around the world in 80 days. He accepts a wager for £20,000 (equal to about £1.6 million today) from his fellow club members, which he will receive if he makes it around the world in 80 days. Accompanied by Passepartout, he leaves London by train at 8:45 P.M. on Wednesday, October 2, 1872, and is due back at the Reform Club at the same time 80 days later, Saturday, December 21, 1872.

Having assured the members of London's exclusive Reform Club that he will circumnavigate the world in 80 days, Fogg - stiff, repressed, English - starts by joining forces with an irrepressible Frenchman, Passepartout, and then with a ravishing Indian beauty, Aouda. Together they slice through jungles, over snowbound passes, even across an entire isthmus - only to get back five minutes late. Fogg faces despair and suicide, but Aouda makes a new man of him, able to face even the Reform Club again. *Around the World in Eighty Days* (1872) contains a strong dose of post-Romantic reality plus extensive borrowing from the author's own *Journey to England and Scotland* - but not a shred of science fiction. Its modernism lies instead in the experimental literary technique, with parallel plots, a narrator constantly made to look foolish, four characters in search of their own unconscious, and a unique twisting of space and time. Verne's classic, a bestseller for over a century, has never appeared in a critical edition before. William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey.

Around the World in 50 Years-Albert Podell 2015-03-24

This is the inspiring story of an ordinary guy who achieved two great goals that others had told him were impossible. First, he set a record for the longest automobile journey ever made around the world, during the course of which he blasted his way out of minefields, survived a breakdown atop the Peak of Death, came within seconds of being lynched in Pakistan, and lost three of the five men who started with him, two to disease, one to the Vietcong. After that-although it took him forty-seven more years-Albert Podell set another record by going to every country on Earth. He achieved this by surviving riots, revolutions, civil wars, trigger-happy child soldiers, voodoo priests, robbers, pickpockets, corrupt cops, and Cape buffalo. He went around, under, or through every kind of earthquake, cyclone, tsunami, volcanic eruption, snowstorm, and sandstorm that nature threw at him. He ate everything from old camel meat and rats to dung beetles and the brain of a live monkey. And he overcame attacks by crocodiles, hippos, anacondas, giant leeches, flying crabs-and several beautiful girlfriends who insisted that he stop this nonsense and marry them. Albert Podell's *Around the World in 50 Years* is a remarkable and meaningful tale of quiet courage, dogged

persistence, undying determination, and an uncanny ability to extricate himself from one perilous situation after another-and return with some of the most memorable, frightening, and hilarious adventure stories you have ever read.

Around the World in Eighty Wines-Mike Veseth
2017-11-01

Inspired by Jules Verne's classic adventure tale, celebrated editor-in-chief of *The Wine Economist* Mike Veseth takes his readers *Around the World in Eighty Wines*. The journey starts in London, Phileas Fogg's home base, and follows Fogg's itinerary to

France and Italy before veering off in search of compelling wine stories in Syria, Georgia, and Lebanon. Every glass of wine tells a story, and so each of the eighty wines must tell an important tale. We head back across Northern Africa to Algeria, once the world's leading wine exporter, before hopping across the sea to Spain and Portugal. We follow Portuguese trade routes to Madeira and then South Africa with a short detour to taste Kenya's most famous Pinot Noir. Kenya? Pinot Noir? Really! The route loops around, visiting Bali, Thailand, and India before heading north to China to visit Shangri-La. Shangri-La? Does that even exist? It does, and there is wine there. Then it is off to Australia, with a detour in Tasmania, which is so cool that it is hot. The stars of the Southern Cross (and the title of a familiar song) guide us to New Zealand, Chile, and Argentina. We ride a wine train in California and rendezvous with Planet Riesling in Seattle before getting into fast cars for a race across North America, collecting more wine as we go. Pause for lunch in Virginia to honor Thomas Jefferson, then it's time to jet back to London to tally our wines and see what we have learned. Why these particular places? What are the eighty wines and what do they reveal? And what is the surprise plot twist that guarantees a happy ending for every wine lover? Come with us on a journey of discovery that will inspire, inform, and entertain anyone who loves travel, adventure, or wine.

What makes a place so memorable that it survives forever in a word? In this captivating round-the-world tour, Paul Anthony Jones acts as your guide through the intriguing stories of how eighty places became immortalized in the English language. You'll discover why the origins of turkeys, limericks, Brazil nuts, and Panama

hats aren't quite as straightforward as you might presume. If you've never heard of the tiny Czech mining town of Jáchymov—or Joachimsthal, as it was known until the late 1800s—you're not alone, which makes its claim to fame as the origin of the word "dollar" all the more extraordinary. The story of how the Great Dane isn't all that Danish makes the list, as does the Jordanian mountain whose name has become a byword for a tantalizing glimpse. We'll also find out what the Philippines has given to your office inbox, what Alaska has given to your liquor cabinet, and how a speech given by a bumbling North Carolinian gave us a word for impenetrable nonsense. Surprising, entertaining, and illuminating, this is essential reading for armchair travelers and word nerds. Our dictionaries are full of hidden histories, tales, and adventures from all over the world—if you know where to look.

'The pace of this kind of travel has not much changed since Fogg set out in 1872. Trains may be a little faster, but there are certainly no high-speed rail links yet across India, China or the USA. Passenger services have practically disappeared from the world's shipping lanes ... Recourse to air travel, even as a convenient means of escape, was not allowed.' Following the route taken by Phileas Fogg 115 years earlier, Michael Palin set out from the Reform Club to circumnavigate the world. The rules were simple, but nothing else about the trip was straightforward... From a tour of Venice on a rubbish barge to ship spotting at the Suez Canal and the bicycle rush hour and snake snacks in China, this is an unparalleled tribute to man's ability to make life difficult for himself.

The Dawn of Everything-David Graeber
2021-11-09

INSTANT NEW YORK TIMES BESTSELLER
A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations
