The semi-diurnal range (the difference in height between high and low waters over about half a day) varies in a two-week cycle. Approximately twice a month, around new moon and full moon when the Sun, Moon, and Earth form a line (a configuration known as a syzygy), the tidal force due to the Sun reinforces that due to the Moon. The tide's range is then at its maximum; this is ...

The Tide To Go pen works best on fresh food stains like tomato juice and grape jelly, but does not work well on ink, blood, grease, grass, mud. For best results using the pen, press the tip down onto the stain to release the removal solution. Tide to Go won't set any stains so if the stain still remains, pre-treat with Tide detergent and wash.
