Triangles can also be classified according to their internal angles, measured here in degrees.. A right triangle (or right-angled triangle) has one of its interior angles measuring 90° (a right angle).The side opposite to the right angle is the hypotenuse, the longest side of the triangle.The other two sides are called the legs or catheti (singular: cathetus) of the triangle.

It was about 10am when we finished, so we decided to go lay on the beach a couple hours. Val asked me to wear my yellow bikini again as she pulled out a very small bikini she had made. She told me she had made it out of just one of my red bandanas. As you can see in the picture, it was quite small. The top triangles were only about 3 inches wide.
