Beautiful Inside and Out-Gena Lee Nolin 2013-10-08

Baywatch star Gena Lee Nolin shares her story of undergoing and overcoming two decades of misdiagnosed thyroid disease and shows how the estimated sixty million Americans suffering from

thyroid disease can learn to live healthy, happy, and beautiful lives. The most comprehensive, user-friendly handbook available for anyone suffering from thyroid disease: everything you need to know to reclaim the happy, healthy, wonderful life you deserve! Gena Lee Nolin, a star of the hit TV series Baywatch, was the picture of perfect health. Then suddenly she was plagued by a baffling array of symptoms: exhaustion, brain fog, bloating, depression, hair loss, and debilitating changes in energy, weight, and mood, culminating in lifethreatening symptoms during her pregnancy. Like millions of American women, Nolin was struggling with undiagnosed thyroid disease. Thyroid problems leave women feeling anything but beautiful, and often they find themselves stigmatized by friends, family, the media—even doctors. But it doesn't have to be that way! Collaborating with New York Times bestselling author and internationally recognized thyroid patient advocate Mary Shomon, Nolin uses her own story to deliver practical information vital for anyone struggling with thyroid issues. Readers will learn how to get diagnosed accurately and treated effectively, how to lose weight, balance hormones, solve beauty challenges, and regain their self-confidence. Full of practical checklists, questionnaires, and advice from America's leading experts in thyroid and hormonal health, here is a heartfelt, helpful guide for women who are ready to feel strong, sexy, and beautiful again.

Science Education Research and Practice from Japan-Tetsuo Isozaki 2021-07-19

This book project poses a major challenge to Japanese science education researchers in order to disseminate research findings on and to work towards maintaining the strength and nature of Japanese science education. It also presents a unique opportunity to initiate change and/or develop science education research in Japan. It provides some historical reasons essential to Japanese students' success in international science tests such as TIMSS and PISA. Also, it helps to tap the potential of younger generation of science education researchers by introducing them to methods and designs in the research practice.

Rowdy-Christopher Madsen 2015-08-15

When Christopher Madsen made the snap decision—perhaps a rash decision—to buy and renovate the famous 1916 racing yacht for which this story is named, he could scarcely have imagined the consequences that were to follow. During the renovation Madsen's investigation of the original owner, New York senator Holland Sackett Duell, uncovered a remarkable true life 1920s adventure and love story; one which fully brings to life the era and flair of Gatsby and Hemmingway yet, by contrast, Rowdy is completely true, historically significant and meticulously documented in support of the authenticity. The reader first walks in Duell's footsteps as he departs New York in 1918 to participate in the Great War (the most detailed accounting ever written on New York's 306th Field Artillery, 77th Division). Highly decorated upon return, the adventure continues as Duell is immersed in politics at the highest level, the birth of Hollywood, sailing competitions with some of the richest men in America, fortunes and mansions and love affairs as well as scandalous affairs. A newly unearthed gem in American history, Rowdy will enjoyably transport the reader back in time to the Golden Age of
