A Common Thread-Beth Anne English 2010-01-25

With important ramifications for studies relating to industrialization and the impact of globalization, A Common Thread examines the relocation of the New England textile industry to the piedmont South between 1880 and 1959. Through the example of the Massachusetts-based Dwight Manufacturing Company, the book provides an informative historic reference point to current debates about the continuous relocation of capital to low-wage, largely unregulated labor markets worldwide. In 1896, to confront the effects of increasing state regulations, labor militancy, and competition from southern mills, the Dwight Company became one of the first New England cotton textile

companies to open a subsidiary mill in the South. Dwight closed its Massachusetts operations completely in 1927, but its southern subsidiary lasted three more decades. In 1959, the branch factory Dwight had opened in Alabama became one of the first textile mills in the South to close in the face of post-World War II foreign competition. Beth English explains why and how New England cotton manufacturing companies pursued relocation to the South as a key strategy for economic survival, why and how southern states attracted northern textile capital, and how textile mill owners, labor unions, the state, manufacturers' associations, and reform groups shaped the ongoing movement of cotton-mill money, machinery, and jobs. A Common Thread is a case study that helps provide clues and predictors about the processes of attracting and moving industrial capital to developing economies throughout the world.

John Sulston was director of the Sanger Centre in Cambridge from 1993 to 2000. There he led the British arm of the international team selected to map the entire human DNA sequence, a feat that was pulled off in record time by an extraordinary collaboration of scientists. Despite innumerable setbacks and challenges from outside competitors the ultimate success of the project can be attributed in large part to John Sulston's own determination, passion and scientific excellence. In this personal account he takes us behind the scenes of one of the largest international scientific operations ever undertaken. He is frank

about the competition with Craig Venter and Celera Genomics, which threatened to undermine the international community's attempts to make the sequence freely available to everyone. He shares with us his excitement as the project unfolded. And as a pragmatist he reveals his hopes and concerns as to how the information unlocked by the Human Genome Project will affect people's lives in the future. The Common Thread is at once a compelling history of this most exciting of scientific breakthroughs and also an impassioned call for ethical responsibility in scientific research. As the boundaries between science and big business increasingly blur, and researchers race to patent medical discoveries, the international community needs to find a common protocol for the protection of the wider human interest. The Common Thread tells a story of our shared human heritage, offering hope for future research and a fresh outlook on our scientific understanding of ourselves.

The Episcopal Church is embarking on a new era of liturgical reform, giving us an opportunity to reflect on why we do what we do as a body. A Christian understanding of life sets every act of personal or communal worship as a response; we look on ourselves and everything around us with curiosity, wonder, awe, fear, love, hope, and uncertainty about what it all means for us and how we feel about it. Worship begins as a response, but reaches into the future and makes alterations to adapt to changing circumstances. This is essential reading as the General Convention approaches and these conversations continue.

A wife discovers her husband has been unfaithful, a widow has a heart attack, a daughter shoots her abusive father, and a mother is forced to tell her son about his dead father's past. By the time the weekend is over each woman is able to show her remarkable ability to adapt to change.

The Common Thread-John & Kristie Gentry 2015-02-19

The Common Thread is a non-fiction manuscript comparing the similarities between all religions, beginning with basic Christianity and Judaism, expanding to include numerous others such as Islam, the scientific theories, Hinduism, indigenous tribes throughout the world and history, and many more. Over the eons, mankind has continuously altered information concerning religion to suit personal agendas. These various changes have allowed a spew of disputes to continue shifting religions, creating divides and also began the unnecessary need to tread lightly, attempting to prevent from offending others because we all have varying beliefs. As Christians, our largest enemy has been both the churches and the laws of various empires. There are a recorded total of no less than ten manuscripts which have been eliminated from the current copy of the Holy Bible. The reasoning these scriptures were left out, according to various historians is they are either unimportant or provide conflicting information to the views of the religions which were arising throughout historical times. A prime example of one of the more important manuscripts missing would be The Secrets of Enoch. It acquires this claim due to the fact the apostles and Christ himself even quote the manuscripts this man left behind before being the only human to transcend to heaven without death. With this as our guide, my husband and I began to examine all the information available. The deeper we began to rummage through the available information of religions throughout history, we began discovering the truth that all religions have a similar origin, as well as, all perfectly can be placed together to create a perfect and complete puzzle. John and I are a husband and wife who originally began researching religion to discover our own personal beliefs. To support our capability of accurately researching this subject, we are in the process of obtaining our Bachelor's in Religion, after which we intend to begin striving towards our Doctrine in Theology. For fear of the time involved in this project, we have elected to begin the complete

documentation of our comparisons, creating The Common Thread.

Seeking a Common Thread-Susan Spielvogel
2015-08-05

Seeking a Common Thread is a coming-of-age novel that takes the reader back and forth in time to Vienna of the 1920s and 1930s, where we meet Lusia Spielvogel, to Connecticut in 1972, where we meet Susan, a fifteen year-old-teenager. All her life, Susan had wondered what was inside the trunk that had always stood in the corner of her family's dining room. Susan's father, Samuel, is secretive and never speaks of the relatives he lost in the Holocaust. There has been a break in the strand of family, and Susan feels no connection to those relatives who were lost. Samuel and his immediate family had lived in Vienna and remained

there for a year after the Anschluss. He was able to escape to Ireland through the sponsorship of a Righteous Gentile named Florence Hobson. Samuel's Tante Lusia and Onkel Jakob were not as lucky. They had packed away a trunk filled with their possessions in anticipation of a future life in freedom; a future that was never to be. Once the family opens up the trunk to reveal its contents, Susan tries to get to know the mysterious "woman of the trunk" through her possessions. Susan discovers a halfway completed embroidered tablecloth among the items in the trunk. A project started, never to be completed by its original owner. The narrative of *Seeking a Common Thread* interweaves Lusia's story with Susan's completion of the unfinished tablecloth and how, through the act of embroidery to complete the project, Susan discovers Tante Lusia's story and in turn discovers herself and a connection to family. The author's father, Samuel, was an eyewitness to the Anschluss and the rise of the Nazis in Austria. The author's grandfather, David Spielvogel, was an inmate in Dachau and Buchenwald concentration camps. The narrative of *Seeking a Common thread* is based on the objects found inside Lusia's trunk, the author's father's testimony and incorporates letters from his personal collection.

The Common Thread-Vanessa von Gliszczyński

From fibers to threads and dyes to fabrics, *The Common Thread* looks at textile techniques and their contexts of meaning, with the Museum of World Cultures' collections from the Americas, Indonesia, Oceania, and Africa forming the starting point. The book presents connections between textile skills and the manifestation basic cognitive abilities. Narrative motifs from various cultures indicate how deeply terms connected with textiles have become established in our use of language. Interdisciplinary perspectives, for instance, from philosophy or contemporary art and music, deepen these themes and offer new,

contemporary interpretations.

Silent Inflammation-Dr Bruce Miller
2016-06-02

What do unrelated diseases such as heart disease, cancer, diabetes, Alzheimer's, Parkinson's, obesity, asthma, depression, premature aging and an army of diseases ending in the suffix "itis" such as gastritis, sinusitis, arthritis, have in common: The buzz word called inflammation.

"Inflammation may well turn out to be the exclusive Holy Grail of medicine - the single phenomenon that holds the key to sickness and health," firmly says William Joel Meggs, author of "The Inflammation Cure." Silent inflammation falls just below the radar of pain and visible swelling. It is akin to life under the volcano. Even though you are feeling well and on top of the world right now, odds are that silent inflammation can be simmering in your body. Like a slow poison, silent inflammation can gradually destroy your body organs and tissues without you feeling it until a chronic disease surfaces in the form of diabetes, heart disease or even cancer that may prove fatal. I challenge you today to make a decision to decrease silent inflammation in your body if you want to move towards wellness as every pain, every chronic disease in your body and every pound of weight gained revolves around silent inflammation. Control it and you will feel better, look better, think better and perform better. That is what this book is about.

To meet these people, I lived out of "Festus," my Toyota pickup truck and a leaky tent, roamed the state of Maine three times, snowshoed across Grand Lake Matagamon, rode a snowmobile along the mountainous roads of Coburn Gore, canoed eighteen miles up Chesuncook Lake, hiked the mountains of

Monson, was backed up to one man's front door by a vicious, growling, teeth-baring dog in Waldoboro, walked two miles through mosquito-infested swale in Roque Bluffs, and slept on a roofed picnic table during a violent thunderstorm at Chemquasabam-ticook (Ross) Lake. As Tom Brown once said, "There is a Spirit that moves in all things." I will always believe that it was guiding my footsteps throughout this book. One of my professors called it serendipity. Each of the people you will meet in the pages of this book has a common thread or lifestyle that links them together. They have found peace living close to the earth, and each, in his or her own way, has shared that peace with me - and here, in this book, with you.

The Path to Glory-Steve Mallon 2006-06

"Ev'ry Irishman prepares himself to one day shake hands with Doom. Sudden death ain't no stranger to the Irish poor. Pap's day came January first, Eighteen-hundred an' twelve, my birthday, I'll be thankin' ye very much. I'll tell ye how it happened, 'though it pains me now as much as ever." A quote of Hughie O'Neill in *The Path To Glory: A Common Thread*. ----- Steve Mallon has written a compelling historic novel as big as the disparity between Old World and New. His sweeping story begins with hopeless prejudice and ends with two men locked in the brutal, life and death struggle for freedom. *The Path To Glory: A Common Thread* is thoroughly researched and historically accurate. A boy becomes a man when he travels an emotional journey and realizes his own place in the vulgarity of man's inhumanity toward his fellow men on the Florida frontier. This example of pure storytelling takes place just following the transfer of Florida's verdant territory from the weakening Spanish Crown to American's hungry for land at any cost. The transfer treaty guaranteed citizenship to all occupants - unless they were Negro or Seminole Indian. And now the saga of Hugh O'Neill, Florida frontiersman, begins with his new life in a new, but violent world; as violent as his dear sweet Ireland, the world

he fled to escape and sorrowfully left behind. This is a story with building action and adventure on every page. An epic portrayal of a new breed of American who must survive against all odds.
